

Instructions for Pre-Medicating Children

We will drop off the prescriptions at the HEB pharmacy in Marble Falls. They must be picked-up within 24 hours. If your child is ill within in three days prior to their appointment, please call us to reschedule.

BEFORE administering medications to your child, make sure they eat a light breakfast. Nothing sweet or greasy, for example, ½ piece of dry toast and one plain scrambled egg.

About 30 minutes after your child eats breakfast administer the Phenergan. Then wait 15 minutes to administer your child the Demerol. This all must be done 1 hour prior to child's dental appointment.

*It is very important that's these instructions are followed exactly to assure that's your child will have the best dental experience possible.

***In order to keep your child's undivided attention while having treatment, we do not allow parents in the operatory. Our staff is very kid-friendly and before the beginning of the treatment we do a "show and tell" of everything that is going to be done that day.**

If you have any questions, please feel free to call us. We would be happy to answer them!

Thank you,
Dr. John Aulick & Team
